*"Nothing can stop the man with the right mental attitude from achieving his goal; nothing on earth can help the man with the wrong mental attitude." - Thomas Jefferson*

Your attitude towards your work has a large impact on your success. As the economic recovery continues it is imperative to find, keep or recover the right attitudes when dealing with prospects, customers, employees and our networks. As a business owner or manager a negative attitude can cost you customers, employees, productivity and commitment. This session could help you gain - or regain - the right attitude for the results you want.

**Dr. Steve Callender, Effective Learning for Growth**, has studied the impacts of work attitudes. He will share ideas on how to change and improve your attitudes to improve your results.
